Visual Arts Audition

Bak MSOA Visual Arts Department encourages its students to explore their personal voice and sharpen their artistic skills through a variety of mediums and classes offered. These currently include ceramics, drawing, painting, sculpture, digital photography, digital design, and printmaking.

PLEASE NOTE:

- All artwork at the audition will be created and provided with the following materials: a drawing pencil, an eraser, and white unlined paper.
- Students should prepare for their audition by practicing with the above-cited materials.

At the Audition, students will complete the following tasks:

1. **Creative Exercise:** At the audition, students will be given **ONE** of the following prompts:
 - Students will be given a series of items and or phrases they will use to create a drawing.

OR

 - Students will be given a piece of paper that includes the start of a drawing. The student will use a pencil to complete the drawing in a unique and creative way.

The style and technique in which the students complete their drawings will be up to them. The emphasis for this section of the audition will be placed on the student's creative process and final design choices. Applicants will be assessed on originality, creative vision, and personal expression. The emphasis of this exercise is to measure creativity as opposed to observational drawing skills.

2. **Still Life Drawing:** Students will participate in an art class where they will be given a group of objects prearranged in a still life. Students will then complete a 2-D observational drawing of the still life. Applicants will be judged on their ability to create an accurate likeness of the still life provided. This would include their understanding of proportion, placement (correct spatial relationships between objects), compositional layout on the page, quality of line and/or mark making, and rendering/shading to create volume. We expect students to have a basic understanding of drawing. The assessment of the drawing will include the student's ability to work for the amount of time given, the accuracy of their image, and the quality of the work.

Theatre Audition

Bak MSOA Theatre students will study and explore all aspects of the theatre process. Through classroom study and studio work, students will be introduced to the areas of acting and musical theatre performance; stagecraft; costuming; technical theatre; and stage management. Additionally, they will learn the principles of theatre production, theatre history, playwriting, and audience appreciation.

Preparation for the Theatre Audition

There is no specific preparation for the Theatre Audition - the audition is designed as a theatre workshop. Students should be dressed to move freely: flat-sole, closed-toed shoes; and loose-fitting clothing such as t-shirts, gym shorts, modest or conservative dance wear, yoga or exercise clothing are appropriate. No jeans or jewelry.

At the Audition, students will participate in the following:

- 1. Acting Exercise:** Students will be matched up with one or two other students for this audition assignment. Each student is judged on his/her own work. Students will have 10 minutes to create a believable scene based on the short original script provided. Memorizing the script is encouraged but not mandatory. (Memorization will not be scored.) An adjudicator will be present at all time to “prompt” the young actors whenever they need a line. The scenes will be presented, and a moderator will give an adjustment, coaching, or redirection for each scene and may side-coach during the second presentation.
- 2. Cold Reading OR Song**
 - OPTION A - COLD READING:** Students will be given a brief script and will be asked to read it making character choices. Students will be evaluated based on their ability to develop or create a character vocally and physically through spoken words and movement in a way that matches what the actor learns from reading the script.
 - OR-**
 - OPTION B – SONG:** Students will be taught approximately 16 bars (less than one minute) of a Broadway musical style song. Students will be evaluated based on their ability to develop a character vocally and physically through song in a way that matches what the actor learns from the song.

Evaluation of Students for the Theatre Audition

We are assessing each child on his/her potential as a theatre student. We apply the audition criteria to the whole child rather than to simply past training/experience or presentational skills. The student’s goal is to listen, follow directions, and freely express his/her creativity as a theatre student.

Students will be evaluated on the criteria as listed below:

- **Voice and Movement (Acting Exercise and Cold Reading or Song)** - Demonstrates an ability to express a character vocally and physically in a way that matches what the actor learns from the script or song.
- **Ensemble** – Demonstrates teamwork through an ability and willingness to collaborate, listen, and react to create a believable scene together.
- **Responsiveness to Coaching** - Demonstrates an ability to take direction and use it to change, correct, or enhance the creation of a believable character/scene on stage.
- **Creativity/Theatrical Awareness** - Demonstrates an ability to have ideas, explore possibilities, make discoveries, and make effective choices to create characters in a place and situation.
